### Goat Milk Formula

**Note: This formula should be used under the supervision of a nutritionally oriented doctor. It is not “approved” by the American Pediatric Association.**

*This formula is an excellent alternative to cow’s milk and soy when a child HAS allergic reactions or is intolerant of milk and soy formulas.*

**For Newborns to 9-12 Months of age:  
Older Children should be supplementing with food introductions**

#### Fresh Goat milk

- 36 ounces

Add to 1 quart goat milk and shake well before using

- 3 TBS organic maple syrup
- 10 drops liquid B-complex - TOTAL B – [Code: TOTAB]
- 2 tsp EFA’s as 1-tsp Flax Oil & 1-tsp Cod Liver Oil by Nordic Naturals – the orange flavored.
- 1 level tsp Primadophilus for Children’s [Code: PRI10 ]

*Formulas may be prepared and stored in the refrigerator for use within 48 hours. However, after the formula has been warmed and the infant fed, any formula remaining in the bottle should be discarded to prevent bacterial contamination.*
